Magento Hosting

Tailored Performance

Magento is a highly flexible and extensible web ecommerce solution. On the flip side, it requires a custom, tailored solution in order to operate at a reasonable speed level. Google has recently introduced speed of loading as a factor in its search algorithms. Speed matters!

Fully managed by 3DPixel.net, the Magento cluster is constantly optimised and secured to provide the highest levels of performance for your store.

Server management from 3DPixel.net allows you to focus on the important aspects of your site, not on the day to day tasks of Linux Server Administration.

A Magento customer is assigned a single member of 3DPixel.net staff so a full understanding and relationship can be built.

Resources

3DPixel.net guarantees the following minimum resources per Magento account. VPS containers are allowed to burst to much higher speeds. As such, customers will generally see much higher throughput.

- 10GB Disk Space
- 1024MB ECC Fully Buffered DDR2 Memory
- 100GB 99.95% SLA Bandwidth / Traffic Allocation Per Month
- 5 Crontab entries
- Additional Bandwidth at £60 per mbit per month (approx 150GB)

See For Yourself

Soapandglory.com

Soapandglory.com is a cosmetics site with heavy seasonal promotions that has crashed previous hosting provisions. The site averages around 5000 unique visitors a day (90.000+ pages) peaking up to 16,000 visitors per day during high traffic periods.

Theplumbstore.com

Theplumbstore.com is a full ecommerce store with approximately 3500 visitors per day and upwards of 2500 products.

Contract & Pricing Information

Contract Information

Magento accounts operate on a 30day rolling contract with payments made in advance of service. Customers wishing to commit for 6 and 12 month contract terms have discounts available.

Pricing Information

Magento accounts have no set up fee although the first month is payable upon receipt of the server.

Price per month: **£100 exclusive of VAT** at the prevailing rate.

Payment methods: FuturePay Card Payments, Invoice, BACS.

Unfortunately, we cannot accept cheques for monthly rolling contractual agreements.
